ideatab Lenovo S6000 tablet

POSITIONING STATEMENT

The IdeaTab S6000 hits the spot for an all-round larger 10" tablet. Quad core processing, an HD IPS screen with HSPA+ 3G at 8.6mm & 560g gives performance, connectivity, and clarity in a frame that is light and easy to hold.

KEY FEATURES

- Quad core MT8389/8125 Cortex A7 28nm CPU gives fast performance for a fluid user experience and for tablet gaming
- IPS 10.1" screen plays at 720p HD resolution
- 8.6mm thin frame
- 560g light design
- 3G HSPA+ (optional) gives fast 3G internet browsing

MARKET PERSPECTIVE

The IdeaTab S6000 is ideal for users wanting a all-round balanced tablet. The quad core CPU gives enough power for super-fluid applications and good tablet gaming, while the 10.1" IPS 720p HD screen is a pleasure on which to view your movies and video. This is combined into a remarkably slim and light frame for its class – at only 8.6mm and 560g it won't tire out your hands easily, which makes it ideal for extended use. The fast optional HSPA+ lets you have fast online browsing wherever you go whenever you like.

Combining these features together makes a strong all-round, multi-purpose tablet.
